*Lugo, 6<sup>th</sup> November 2008*

***TO ALL OUR BEST CUSTOMERS***

*Dear Sirs,*

On October 30<sup>th</sup> 2008 the Interpump Group Spa has finalized the closing of the acquisition of 51% of our company.

The acquisition forms part of:

- A. The Interpump Group's aim of creating an industrial hub of international importance within the hydraulic cylinders segment, which will provide significant synergies with the Group's operations in the hydraulic sector. The goal will be achieved, using the same strategic approach which has enabled the Interpump Group to become a world leader in the other segments in which it operates.
- B. The Contarini's strategy of making it wider its own potentiality and its availability of products, aiming to give the best service to its own Customers.

It is important to underline that - also for the future business relationship - the ordinary management of the company won't change, as well as the contacts you are used to apply to.

We are sure about the appreciation of the market concerning the new company developments and about the relative advantages that this operation will bring to all the involved parts.

We take this occasion to remind you that we will be exhibiting in the fair EIMA INTERNATIONAL, to be held from November 12<sup>th</sup> till November 16<sup>th</sup> 2008. You will be finding us at the booth A26 in the pavillon nr. 20 For further information and pre-registration, we beg you to visit the website [www.eima.it](http://www.eima.it)

Best regards
